## Market Opportunity

In a world increasingly shaped by AI and digital automation, notarization remains a vital safeguard for trust, authenticity, and legal integrity. As AI-generated content, deepfakes, and digital fraud become more sophisticated, the role of a notary in verifying identity, witnessing signatures, and certifying documents is more important than ever.

Notarization adds a crucial human layer of accountability and legal assurance that technology alone cannot fully replace. It helps protect individuals and organizations from forgery, fraud, and disputes, ensuring that critical agreements and transactions remain secure and enforceable in our rapidly evolving digital landscape.

**1.25bn**

Documents notarized in the US each year.

**244%**

Increase in document forgery in the US since 2024.

**4.4m**

## Core Features of SAAS platform

### Notarize From Anywhere

Initial onboarding and ongoing transactions can be completed from a smartphone, notebook, laptop or desktop computer.

### Fraud Free

We utilize 2-factor authentication, AI-enabled biometric identification and dynamic knowledge-based authentication (KBA) to confirm an identity.

### Bank-Grade Security

Our encrypted blockchain technology is in line with online banking security standards, keeping any confidential documents and information secure.

### Intuitive Dashboard

Once a document is signed, certified and paid, it's uploaded and stored in a users personal dashboard where it can be downloaded, emailed directly or shared with a relevant third-party.

### Electronic Verifications

We provide real-time digital notary verifications. A third-party user can verify the document on our platform at any time to confirm notarization and tampering, if any.

### Electronic Notary Journal

Notaries can access all video sessions and notarized documents in their dashboard and notarization data is automatically transferred to a compliant online notary journal.

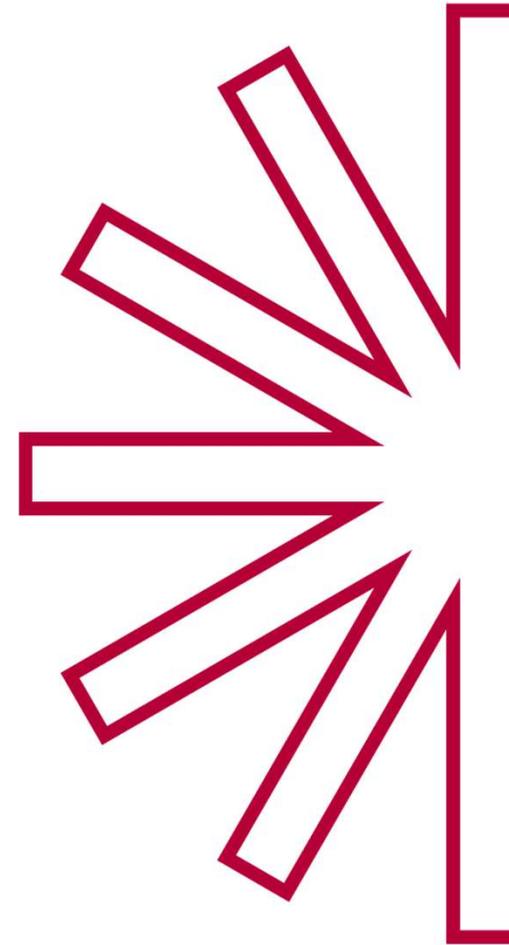

### International ID's Accepted

We can electronically verify US Passports, Driver's Licenses, State ID Cards, Military ID Cards and Passports & Government ID Cards from over 200 countries.

### Compliant Storage

Our platform records all transactions and securely stores the recordings and notarized documents for 10+ years to ensure state-specific compliance.

## Convenient, Fast & **Tamperproof**

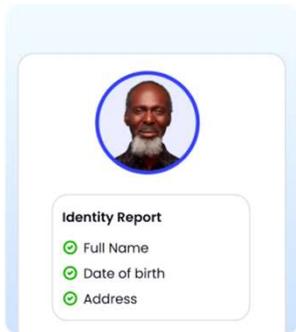

### **Biometric Identification**

AI-powered biometrics provides real-time ID and live-photo liveness verification

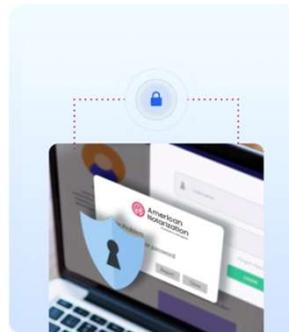

### **Knowledge-Based Authentication (KBA)**

Provide timed answers to personal questions only you know the answers to

### **2-Factor Authentication**

Your email and your smartphone number are required for further validation

### **Bank-Grade Security**

Our verification process, data storage, and security are in line with online banking standards

## Our Team

Vishal Soni is the Founder & CEO of American Notarization and Authxperts, a notarization consultancy also based in the US and is also a licensed notary himself.

---

Vishal has proven experience in building businesses and has grown Authxperts in the field of notarization with expertise and a deep network in the ecosystem.

A qualified chartered accountant from India & Certified Management Accountant in the US, he has managed the MVP build, product development & lead sales to date which has unlocked access to US Embassies around the world.

Vishal's experience and deep industry expertise will cornerstone the foundations of the team being built to scale American Notarization.

## Marketing Channels

We will use a multi-channel approach to discover optimal return on marketing investment.

The goal is to acquire 3 well-known brands in each vertical to enhance marketing efforts in acquiring those industries.

01

### Strategic Partnerships

- Strategic partnerships with industry leaders to position AN as thought leaders in the category.
- Leverage out industry leading revenue split with notarizors in order to gain market share quickly & economically.

02

### Digital Marketing

- Market via LinkedIn, generate User Generated Content from customers & targeting other social ads.
- Using case-studies from leading organisations & business influencers to enhance awareness & conversion

03

### Industry Events

- Target major industry events with panel positions & podcasts to optimize reach & reputation.
- Target podcasts in each industry we are looking to take, covering various ages & demographics.

## Business Model

Online notary and remote ink notarizations **are >50% cheaper than US Embassies charge** and this is without factoring in the time, cost & inconvenience of travelling to an embassy. It's ideal for businesses with frequent notary needs and individuals completing personal documents. For further savings, we charge nominal fees for the second seal on the same document that require multiple notary seals.

### Individuals

One transparent flat-rate

**Onboarding:**

\$0 until you notarize

**First Notary Seal:**

\$25 per document

**Second Notary Seal:**

\$8 per document

**Each Additional Signer:**

\$5 per document
